Tod,

Just wanted to let you know that you are changing Oregon.

* You invited me to speak.

* A woman in the audience worked for Representative Greg Mannix.

* She set up a meeting with him the very next day.

* He wrote the original stalking law; the one that's outdated and I effective.

* He's not only sponsored the new law, he's charging ahead and making sure it goes all the way.

We might have the new law on the books within the next 2 weeks.

Thank you, thank you, thank you. I was excited and wanted to support what you were doing. I never imagined I would make political connections at Fashion Week. But Fashion Week changed everything. □ Just wanted you to know.

V/R,

~Amber
